

AARDVARK is committed to providing the highest quality and most innovative integrated products and services possible. It is AARDVARK's objective to establish long term relationships with our clients and suppliers by always conducting ourselves with honesty, integrity, and dedication to our end users.

AARDVARK produces fully Integrated Systems of mission-specific modules and industry leading equipment designed to work together to accomplish our client's mission.

AARDVARK provides innovative integration and mission support services with top of market client service from a knowledgeable staff whose primary objective is ensuring the safety and operational effectiveness of our clients.

The HPV M1 SWAT Acoustic Hailing Device provides extremely clear, intelligible voice broadcast that cuts through high levels of background noise allowing subjects to hear and understand user commands, alleviating potential escalation. Easily user-installed in less than an hour, the system's user-interface seamlessly integrates with the Bearcat's center console while the speakers are mounted via rare-earth magnets to the front of the vehicle's turret, allowing for unobstructed broadcast from an elevated position without increasing the overall height of the vehicle.

SPEAKER SPECIFICATIONS:

- **INCLUDES:** Two dipole rectangular planar magnetic transducers
- **CONSTRUCTION:** Weatherproof design made of Steel and Neomydium, with Xenoy alloy wave-guide and resonance chamber
- **OUTPUT:** 120dB of unique penetrating "flat compression wave" sound projection
- **FREQUENCY RANGE:** 350Hz to 7KHz of full frequency voice projection
- **SPREAD PATTERN:** Adjustable from 90 degrees to 180 degrees by rotating speakers outward
- **USABLE DISTANCE:** Easily understood at distances of 750 feet or more
- **MOUNTING:** Toolless roof mount using rare earth magnets

INTEGRATED AMPLIFIER SPECIFICATIONS:

- **MANUFACTURE:** Bang & Olufsen
- **POWER HANDLING:** 400W RMS audio amplification, 200W RMS per speaker
- **PEAK POWER:** 1080W peak instantaneous power

CONSOLE SPECIFICATIONS:

- **INCLUDES:** 1440W DC/DC converter, Audio HiFi pre-amp mixer, two Class D power amplifiers
- **MOUNTING:** Retrofit into center console of Bearcat
- **DESIGN:** Simple, user friendly layout
- **BATTERY CABLE:** Pre-terminated cable with in-line fuse, bolts to vehicle battery
