

ILB-40MM

INTEGRATED LOAD BEARING 40MM PACK

The PROJECT7 **INTEGRATED LOAD BEARING 40MM PACK** (ILB-40MM) replaces the old way of “organizing” and carrying your 40MM less-lethal rounds. Designed to carry rounds in three separate compartments (5, 10, 33 rounds) the ILB-40MM provides an organized and easily accessible way for a single team member to carry 48 rounds. The pack is designed to be operated out of directly either by removing it or by placing it onto a team member (e.g. a lethal cover officer). **(AMMUNITION NOT INCLUDED)**

KEY FEATURES

Key features for **ILB-40MM** include:

- External 10.5”x5.5”, padded, elastic lined top pocket built to carry five, 40mm less-lethal projectiles
- External 10”x10”, padded, elastic-lined bottom pocket built to carry ten, 40mm less-lethal projectiles
- Large internal 10.5”x16.5”, padded, elastic-lined, isolated compartment to house 33, 40mm less-lethal projectiles
- Webless MOLLE/PALS surfaces on the outside of the pack for additional gear attachment
- Removable shoulder straps with magnetic sternum strap
- Constructed of Squadron and 500D Cordura

NOTE: ILB-MD is fully compatible with the PROJECT7 ILB vest integration system sold separately.
