- + SWIFT Under Door Camera (4-camera version)
- + TE5 Monitor
- + Through Wall Camera XL – 17in
- + Through Wall Light XL – 17in
- + Hard Case

DESCRIPTION:

The SWIFT Covert Surveillance Kit provides operators with covert, real-time video of areas that cannot be directly observed. The kit includes the SWIFT Pole Camera (1.75m), SWIFT Under Door Camera (4-cam), Through Wall Camera XL, Through Wall Light XL, and the TE5 Monitor.

The kit enables operators to covertly access and monitor elevated spaces, closed rooms, areas behind walls, and concealed environments, delivering wide-angle video surveillance from a position of cover or concealment. The SWIFT Covert Surveillance Kit supports pre-entry surveillance, room clearing, barricaded subject response, and covert reconnaissance—delivering the reach, stealth, and low-light video clarity required to gather real-time video intelligence in any environment.
